Subject: RE: SO2 SIP for Baltimore AA Counties
Attachments: MDE SO2 SIP-22may18_MSG comments 071718.docx

Roger,

Thanks for the chance to review the preliminary draft of the MD SO2 SIP. I've included my comments (staff level) in the document, and thought it would be beneficial if we could go through them on a call. Some of the comments are questions and may be easily answered through a quick discussion.

I'm available for a call anytime next Monday, Tuesday afternoon or Wednesday morning. Please let me know if any of those times work for you, and if not, please suggest a new time.

Thank you,

Megan Goold

Subject: SO2 SIP for Baltimore AA Counties

Megan:

I got the authorization to share a very preliminary draft of our SO2 SIP with you. It comes with a lot of caveats.

The SIP can and will change significantly based on whatever EPA decides is acceptable for permits limits, averaging times, modeling, etc.

The emissions inventories are a work in progress and some of the emission estimates are placeholders.

The permit limits are not fixed, as you know.

The contingency plans are based off of the permit limits so they are also not even close to finalized. MDE is only looking to ensure that all the elements are there to make the SIP complete.

Please do not share with anyone outside of your office.

Roger
